Lee Heuston produced an excellent round in very wet conditions to win Saturday's A Grade with 39 pts from his single figure handicap. This round also enabled him to win his singles match play event with John Martin who is always hard to beat in this format. Cameron Johanson played the round of the day, recording 37 pts from his 1 handicap—a par round when there was no run and many heavy showers. Chris Zawirski finished third with his 33 pts, indicating that most A Graders struggled on the day. Kelvin Mather won B Grade, on a countback from Tony Seamer, with 39 pts, both very pleasing rounds on any day. Paul Bush's 37 pts was good enough for third. Geoff Jones won C Grade with 37 pts just ahead of Michael Maddock's 36 pts and Noel Hughes' similar score. The shot of the day belonged to Barry Turner's shot to the 4th which finished only 86 cms away—the good news was he holed the putt! Barry certainly turned on the lights during his round recording four 4 pointers—he obviously suffers from the same affliction that we all endure in golf, that being consistent throughout the day—if we were allowed a few mulligans our scores would be so much better! Long term member and one of the most calm, relaxed and unruffled players in the club, Richie Turnbull, showed he can show his emotions like the rest of us. His round included using 3 putters—one being the driver—and a broken golf umbrella which surfaced when the heavy rain hit! His playing group were quite astounded and amused that Richie finally showed some emotion when things go wrong—well done Richie! (it must be said that his broken putter was not deliberately broken!). Steve Ross playing in this group was also quietly satisfied after his round of 36 pts as he is now playing off his lowest handicap of 15—with many thanks to our local pro Marcus (I wasn't going to mention this as I don't want Marcus to get too big headed- but well done pro!)
